

Chemistry – 12th Jan

Higher

- Fractional distillation & cracking
- Complete and incomplete combustion
- (Dynamic) equilibrium and yield
- Rates of reaction including tangent line (gradient) and mean rate of reaction
- Factors that effect the rate of a reaction
- Changes to the atmosphere

Foundation

- Rates of reaction – including calculating mean rate of reaction
- Factors that effect rate of reaction
- Reversible reactions
- Percentages
- Compounds
- Changes to the atmosphere
- % change
- Noble gases
- Global warming
- Fractional distillation and cracking
- Complete and incomplete combustion
