Introduction

What is malpractice and maladministration?

‘Malpractice’ and ‘maladministration’ are related concepts, the common theme of which is that they involve a failure to follow the rules of an examination or assessment. This policy and procedure uses the word ‘malpractice’ to cover both ‘malpractice’ and ‘maladministration’ and it means any act, default or practice which is:

- a breach of the Regulations
- a breach of awarding body requirements regarding how a qualification should be delivered
- a failure to follow established procedures in relation to a qualification

which:

- gives rise to prejudice to candidates
- compromises public confidence in qualifications
- compromises, attempts to compromise or may compromise the process of assessment, the integrity of any qualification or the validity of a result or certificate

- damages the authority, reputation or credibility of any awarding body or centre or any officer, employee or agent of any awarding body or centre (SMPP 1)

Candidate malpractice

'Candidate malpractice' means malpractice by a candidate in connection with any examination or assessment, including the preparation and authentication of any controlled assessments, coursework or non-examination assessments, the presentation of any practical work, the compilation of portfolios of assessment evidence and the writing of any examination paper. (SMPP 2)

Centre staff malpractice

'Centre staff malpractice' means malpractice committed by:

- a member of staff, contractor (whether employed under a contract of employment or a contract for services) or a volunteer at a centre; or
- an individual appointed in another capacity by a centre such as an invigilator, a Communication Professional, a Language Modifier, a practical assistant, a prompter, a reader or a scribe (SMPP 2)

Suspected malpractice

For the purposes of this document, suspected malpractice means all alleged or suspected incidents of malpractice. (SMPP 2)

Purpose of the policy

To confirm Cardinal Langley RC High School:

- has in place a written malpractice policy which covers all qualifications delivered by the centre and details how candidates are informed and advised to avoid committing malpractice in examinations/assessments, how suspected malpractice issues should be escalated within the centre and reported to the relevant awarding body (GR 5.3)

General principles

In accordance with the regulations Cardinal Langley RC High School will:

- Take all reasonable steps to prevent the occurrence of any malpractice (which includes maladministration) before, during and after examinations have taken place (GR 5.11)

Cardinal Langley RC High School has in place:

Informing and advising candidates how to avoid committing malpractice in examinations/assessments

Candidates are informed of how to avoid malpractice during examinations with an exam booklet including JCQ Information for Candidates which outlines ways in which they can commit malpractice.

AI Use in Assessments

Artificial Intelligence (AI) tools are now widespread and easy for students to access. Cardinal Langley RC High School recognises that AI has many uses which help students to learn, but may also lend itself to malpractice and plagiarism. Students may not use AI tools during assessments, including internal and external assessments, and coursework. They may not use AI to write their homework or classroom work, where AI generated text is presented as their own work. Students may use AI tools to research new topics and ideas. They may use AI tools when specifically discussing AI in the classroom, for example in IT lessons or Art homework. All AI generated content must be referenced correctly, including the title of the source, the date the content was generated, the author of the tool, the name and version of the AI system used, and the website used. In addition, the student must retain a copy of the questions and computer-generated content for reference and authentication purposes, which should be in a non-editable format i.e. a screenshot, and provide a brief explanation of how it has been used. Staff should be aware that AI tools are being developed and should use such tools with caution as they can provide inaccurate, inappropriate or biased content. They should make sure they inform students of the risks of using AI tools and that they must properly reference any AI generated work they use. For further information AI Use in Assessments, see JCQ's 'AI Use in Assessments: Protecting the Integrity of Qualifications'. (https://www.jcq.org.uk/wp-content/uploads/2024/02/AI-Use-in-Assessments_Feb24_v3.pdf) Any misuse of AI tools may be treated as malpractice.
